A Dangerous Obstacle Removed.

Even if the more optimistic antici pations regarding our controversy with Germany prove fallacious, enough is already foreshadowed to justify the hope that a dangerously obscuring cloud has been lifted from the discussion

Poems That Have Been Added To.

The recent republication, with extravegant but well warranted praise, of WILL H. THOMPSON'S poem "High Tide at Gettysburg" brings up one of the most remarkable of American literary mystifications. "High Tide at has proved John Burroughs's doc-Gettysburg," as it is always quoted now, is one of the few examples of anonymous tinkering or amendment of the poems of others in which the amendment is better than the original and the tinkering superior to the author's actual workmanship. The three best stanzas in "High Tide at Gettysburg" are the following:
